

# SOLANA® U04 ARM

The slender counterweighted design of the Solana U04 arm blends perfectly with the look of the Solana SL635 and SL735 luminaire. Its aluminum cast construction is designed to be strong yet elegant. The twin arm design carries the arching form over the pole to perfectly balance two luminaires.

The Solana U04 arms fit a P4 or P5 pole top tenon and secured mechanically by way of stainless steel set screws. The luminaire driver(s) are suspended within the arm's vertical tube and are accessed through a service door in the side.

## ORDERING EXAMPLE: 1-U04-7-PT-5 / UGMT

BUILD A PART NUMBER								
NO. OF ARMS	URBAN (U) LINE ARM	ARM STYLE	FIXTURE	MOUNTING STYLE	POLE DIAMETER	COLOR		
1	U	04	6	PT	P4	UGMT	UGM	
2*			7		P5	UBT	UB
